“

Crafting tomorrow's elegance today,  
our brand melds contemporary design  
with the timeless allure of natural ma-  
terials, shaping a sustainable legacy in  
every creation.

## Our story

WR-Inspired embodies modern sophistication and European craftsmanship. Our brand seamlessly merges contemporary aesthetics with premium quality and sustainable craftsmanship

Our cutting-edge European facilities blend steel with natural materials, ensuring sustainability while crafting designed furniture and decor. From coffee table sets to dining tables, chairs, racks and decorative pieces, each item reflects our commitment to excellence.

Partnering closely with architects, hospitality experts, and retailers, we offer tailored solutions for custom projects. Our made-to-measure options cater to unique interior visions.

# Made for interior professionals

Discover sophistication redefined for retailers, shops and wholesale. Our selected assortment of furniture and decor infuse custom elegance into your space. With a unique WR-Inspired concept we create a lasting impression.

We offer balanced collections embodying contemporary chic and luxury design. Tailored solutions cater to your brand's identity and story line. Sustainable craftsmanship combines steel with recyclable natural materials.

Experience excellence, immerse yourself in our showcase at international trade fairs. Partner with us to transform your retail environment or store into a haven of elegant luxury.

Sophistication that elevates your retail space into an immersive experience of custom excellence.”

# Materials and sustainability

Sustainability is at the core of our product philosophy. We prioritize quality materials like durable powder-coated steel and natural elements such as wood, stone, quartz, glass, and textiles. Our use of durable powder coatings reflects our commitment to environmental responsibility. These coatings minimize VOC emissions, ensuring minimal impact on air quality. Additionally, our materials comply with European regulations, containing no harmful components. Sustainability isn't just a feature; it's a fundamental aspect woven into every product we create.

Our commitment to sustainability extends beyond our materials' quality to their lifecycle impact. We're proud that the materials we use are fully recyclable, ensuring a sustainable loop that minimizes waste and environmental impact. By prioritizing recyclable materials, including steel that remains valuable in its reuse, we aim to forge a path toward a more sustainable future.

## METAL

Our metal materials, shaped and refined, undergo precise treatment with durable powder coatings at our cutting-edge production units. Each piece is crafted, ensuring matchless quality and durability, a testament to our dedication to crafting exceptional furniture.

## WOOD

Working with veneered oak in diverse colors and finishes, offering versatility in thicknesses. We also embrace the timeless allure of natural massive oak wood, preserving its beauty with a protective two-component sealer. Our craftsmanship tells a story of elegance and resilience.

## STONE

Our partnership with stone is a testament to years of expertise and dedication. We offer matchless solutions, whether it's the timeless allure of natural stone, the versatility of quartz composite, or the precision of ceramics. With each project, we bring forth a passion for the artistry of stone.

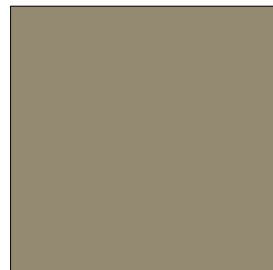

## TEXTILE

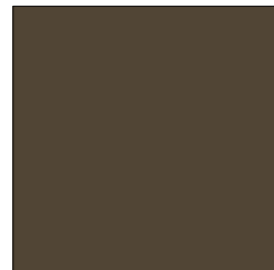

Choose from our versatile range of in-house solutions in various types and colors. If you have specific preferences, we seamlessly integrate your chosen textiles into our designs. Moreover, when projects demand compliance with legal standards, count on our expertise to meet all necessary requirements.
